PRESS RELEASE

A strong year for Llama Travel

For the financial year ending on 30 September 2011, Llama Travel had another successful year, with audited accounts showing that the company increased turnover and profit from the previous year.

Luca Newbold, Director, said “Although the economic situation in the UK has remained tricky, we have seen a growth in business, with strong sales in the past 12 months. Despite the continuing uncertain economic situation, Llama Travel has performed strongly.

We expect that the economic environment in the UK in 2012 will continue to prove challenging, but Llama Travel is very well positioned in the market to continue to thrive. We have a very strong financial position, with substantial financial reserves, no debts and no need to borrow money.”
